HANDS OFF MEDICAID, THE NIH, AND OUR UNION!

RALLY ON MON, MARCH 24, AT 12 PM

The Trump administration is attacking two pillars of Rutgers Health—Medicaid and National Institutes of Health funding—among its many other assaults. At the same time, Robert Wood Johnson Barnabas Healthcare (RWJBH) and the Rutgers administration have carved nearly 200 physician faculty out of union representation, under appointments called Clinically Focused University Practitioners (CFUPs) and "voluntary faculty."

Our Rutgers unions are committed to fighting to maintain good *union* health care jobs and federal funding that is vital for our patients and our research.

Join a lunchtime rally outside Bristol-Myers Squibb Hospital, at 200 Somerset St, New Brunswick, NJ, at 12 p.m. on Mon, 3/24.
